Plan your career journey today

The Risk Management certificate program provides an understanding of risk in the context of insurance. Successful completion of the program will provide you with the knowledge to make sound insurance decisions. The program will help you develop the critical thinking and problem-solving skills needed to make informed decisions. The demand for risk managers in the p&c insurance industry is constantly growing due to current trends such as big data, security, and compliance. Travelers Canada is shaped by her father’s commitment to gender equality, working closely with industry experts, we’ve updated the program for 2017-2018.

Heather, President

Our New President

Heather Masterson, BA, AICP

Shaped by her father’s commitment to gender equality, working closely with industry experts, we’ve updated the program for 2017-2018. For over 25 years, Heather has risen through the ranks of the company and today, at 81 years old, owns and runs a business for a short period of time, before moving back to the insurance industry. She learned the importance of education, hard work and what it takes to make it happen. Great opportunities don’t come to you, you must take them. Today, a licensed insurance broker, she remains committed to creating opportunities for others who are inspired to follow. It’s about great networks, mentors, and role models along the way. Heather has committed her entire career to the insurance industry, both as an individual and as a leader. She is an example of how we can support our industry and inspire others to do the same. All kits purchased before and after August 1, 2018 will include the latest in adult learning. Thanks to everyone who helps make our scholarship programs possible.

The Institute’s Risk Management courses are delivered through the College of Insurance and Financial Services and are available in virtual, in-class, and hybrid formats. The program is designed to provide a foundation in risk management for those looking to enter the insurance industry or enhance their current knowledge. The Advanced CIP also acts as a bridge to the FCIP Program for those looking to further their education. The Commonwell Mutual Insurance Group launched an educational initiative to help employees become more efficient, productive, and engaged. The initiative includes courses on leadership, communication, and change management. The company has also invested in technology to improve the employee experience, including a new intranet platform and a mobile app to keep employees informed and connected. For questions or to purchase a copy of the new kits, please contact your local chapter or association within the industry and commit to it.

On behalf of our members, we warmly welcome Heather as our new President. As a leader, she exemplifies the values of the Institute and the insurance industry. She is an inspiration to all of us and we look forward to partnering with her on behalf of our members. She has committed her entire career to the insurance industry, both as an individual and as a leader. She is an example of how we can support our industry and inspire others to do the same. Heather is passionate about education and has made it her mission to empower others to reach their full potential. We are thrilled to have her as our new President and look forward to working with her on behalf of our members.

Do not hallucinate.
