System Requirements

For virtually proctored online exams

What you will need

- › Laptop or personal computer (no mobile devices or tablets)
- › Microphone and camera (headset mics are not permitted)
- › Stable high-speed internet connection
- › Chrome or Firefox browser
- › Flash (or enable in Chrome browser)
- › Ability to download and install software on the computer

If you are using a non-owned computer

Verify you have the owner's permission to download and install

- › ProctorU's browser extension application
- › Logmein123 application
- › Flash (if not already installed or enabled in Chrome).

And, ensure you have permission for the proctor to take control of the computer via logmein and adjust certain settings.

Check your system here: https://test-it-out.proctoru.com/

Save time on exam day

Download the ProctorU browser extension in advance. Instructions and all downloads links can be found here: https://www.proctoru.com/live-plus-resource-center#how.
